

**Arizona Report of Public Agency Performance on
Suspension/Expulsion Rates by Race or Ethnicity for Students with IEPs**

Indicator 4B: Suspension/Expulsion Rates by Race or Ethnicity

Percent of public education agencies (PEAs) that have (a) a significant discrepancy by race or ethnicity in the rate of suspensions and expulsions of greater than 10 days in a school year for children with IEPs; and (b) policies, procedures, or practices that contribute to the significant discrepancy and do not comply with requirements relating to the development and implementation of IEPs, the use of positive behavioral interventions and supports, and procedural safeguards.

Measurement

The percentage is the number of PEAs that have (a) a significant discrepancy by race or ethnicity in the rate of out-of-school suspensions and expulsions of greater than 10 days in a school year for children with IEPs; and (b) policies, procedures, or practices that contribute to the significant discrepancy and do not comply with requirements relating to the development and implementation of IEPs, the use of positive behavioral interventions and supports, and procedural safeguards divided by the number of PEAs in the State, times 100.

Data

The data are from school year 2013-2014. A PEA that suspends or expels 5.50% or more of its students with IEPs of a given race or ethnicity for more than 10 days is flagged for significant discrepancy. A PEA that is flagged for significant discrepancy must review its policies, procedures, and practices relating to the development and implementation of IEPs, the use of positive behavioral interventions and supports, and procedural safeguards. There must be at least 50 students in the denominator of a suspension/expulsion rate for that district or charter school to be flagged as having significant discrepancy. The denominator represents the special education enrollment at the PEA for a given race or ethnicity.

PEAs that are listed with an asterisk (*) suspended students with IEPs at a rate $\geq 5.50\%$ but:

- The total number of students with IEPs enrolled was less than 10, or
- The total number of students with IEPs suspended was less than 10.

In these instances, the data are not reported to ensure confidentiality.

PEAs that are listed with a number symbol (#) suspended students with IEPs at a rate $< 5.50\%$ but:

- The total number of students with IEPs enrolled was less than 10, or
- The total number of students with IEPs suspended was less than 10.

In these instances, the data are not reported to ensure confidentiality.

PEAs that are listed with a NA (not applicable) had no students of that race/ethnicity enrolled.

State Target: 0.0%

State Results: 0.0% (based on review of PEAs' policies, procedures, and practices)
